PROFESSIONAL
SUMMARY

Results-driven SQL Developer with 10 years of professional experience in MS SQL Server, ETL development, database architecture, and application support. Proven ability to design and implement tailored technical solutions that align with business objectives and operational requirements. Recognized for strong analytical thinking, problem-solving skills, and consistent delivery of high-quality results in dynamic, cross-functional environments.

SKILLS

- SQL (T-SQL, PL/SQL)
- Microsoft SQL Server
- Azure Cloud Platform
- ETL/ELT
- API Integrations
- HIPAA / HITRUST
- Data Visualization
- Reporting (SSRS, Crystal, Power BI)
- Microsoft Power Platform

WORK HISTORY

DATABASE ADMINISTRATOR III

03/2026 to Present

Food City/K-VA-T Food Stores | Abingdon, VA

- Manage integrations between backend data and frontend applications
- Improve data efficiency by optimizing procedures and query plans
- Nutanix/NDB VM configuration, version control, and system maintenance
- Azure Arc and Monitor server onboarding, alert implementation, and data collection rules configuration
- Manage role-based access and user management
- Monitor and assess dozens of server workloads and implement remediation steps as needed
- Install and configure Microsoft SQL Server for new and existing instances

DATABASE ADMINISTRATOR | REPORT WRITER

04/2025 to 03/2026

Nexus | Schertz, TX (remote)

- Create API integrations for on-prem and cloud environments
- Improve data efficiency by optimizing procedures and query plans
- Gather project requirements for reporting needs and coordinate successful completion of those projects
- Manage and configure MS SQL Server on Azure Virtual Machines
- Monitor and manage Azure resources for multiple VMs

SQL DEVELOPER | REPORTING SPECIALIST

03/2022 to 01/2025

ElectriCom, Inc | Paoli, IN (remote)

- Spearhead report conversion to new tools and platforms such as Power BI and SQL Server Reporting Services (SSRS)
- Bringing IT team into new ETL environments with SSIS and source control with DevOps
- API project lead for syncing ERP system with third-party fleet management software
- Project lead for transition to Power BI
- Manage security groups, user roles, reports, and data elements within Viewpoint ERP system
- Designed and implemented TSQL queries for reporting and complex solution development.
- Developed, implemented and optimized stored procedures and functions using T-SQL.

SQL DEVELOPER | APPLICATION SUPPORT ANALYST 01/2019 to 07/2022

Food City (K-VA-T) | Abingdon, VA

- Manage and write T-SQL stored procedures for reports and visualization at the store and corporate level
- Write PL/SQL queries for a project focused on transitioning from IBM AS400 to Java-based inventory program
- Reporting lead for converting all Crystal reports to SQL Server Reporting Services (SSRS)
- Communicate with employees from all stores and departments to evaluate and meet business requirements
- Work in source control management with other developers through Azure DevOps
- Collaborated with app developers, analysts and project managers to expedite incident resolutions

TIER 2 TECH SUPPORT

01/2018 to 01/2019

Food City (K-VA-T) | Abingdon, VA

- Problem solve as a team alongside employees in all departments and levels to resolve technical issues
- Experience managing support tickets
- Experience troubleshooting and repairing various equipment and software independently

ASSEMBLER | INVENTORY ANALYST

02/2017 to 03/2018

Utility Trailer Manufacturing Company | Glade Spring, VA

- Monitor and track inventory

EDUCATION

- Read blueprints to determine appropriate parts for orders
- Develop and update reports for receiving and tracking material

King University, Bristol, TN

Bachelor of Science | Information Technology Concentration - Cybersecurity

Southern New Hampshire University - Online

Master of Information Technology | Software Development Concentration

Expected Graduation: 2026
